

Math

An exemplary math student:

- demonstrates a high level of proficiency in mathematical concepts and skills
- participates in class activities and discussions
- demonstrates strong mental math and estimation skills
- makes conceptual extensions to relate concepts with new contexts
- uses a variety of strategies and demonstrates perseverance in problem solving contexts
- utilizes concise and proper mathematical communication and notation
- is curious about extending concepts and connecting math to life contexts
- takes responsibility for their own learning and comes to class ready to learn
